Highly organized professional with a proven track record of maintaining efficient business operations through robust technical skills. Experienced in managing information and records with precision, now applying these skills to develop efficient and scalable software solutions. Known for strong interpersonal skills, excellent communication, and a commitment to continuous learning and professional development in software engineering. Eager to apply my passion for tech innovation and technical expertise to contribute to dynamic tech teams and foster an inclusive and collaborative work environment.

SKILLS

Full-Stack Development: HTML, CSS, JavaScript, React, Express, Node, Python, Django, User Interface

Databases and tools: MongoDB, PostgreSQL, RESTful Routing, JSON API, Git, Github, Software Testing

Skills: Communication, problem-solving, collaboration, troubleshooting

TECHNICAL WORK SAMPLES

Spaceman game | *HTML, CSS, Javascript*

- Visually appealing and space-themed adaptation of the classic web-based hangman game.

AddVentures | *MERN stack*

- Developed an app with mapping functionality to enable users to visually identify and save locations.
- Implemented features allowing users to add descriptions to pinned locations, enhancing the user experience.
- Utilized MongoDB to store location data and user information securely, ensuring scalability and reliability.

Delicious Dash | *NodeJS, Express, EJS*

- Implemented secure, token-based authentication using JWT
- Spearheaded backend development using Node, Express and MongoDB/Mongoose.

ReactOpedia | *React*

- Developed a React app using the Google Books API to provide users with access to a vast library of books.
- Implemented a user-friendly interface allowing users to search for books by title, author, or keyword, enhancing the discoverability of relevant reading material.

EXPERIENCE

Al Hilal Bank Kazakhstan | *Project Administrator*
